## Business Analyst (CSPO®)

India | khuranamuskaan13@gmail.com | +91 98132 91401 | linkedin.com/in/muskaan-khurana13

### PROFESSIONAL SUMMARY

Business Analyst with 3.5 years of experience across regulated industries, spanning payments-focused fintech and pharmacovigilance. Bridges business, product, and engineering, translating complex functional and regulatory requirements into implementable system behavior for engineering teams. Designed and standardized reusable payment capabilities instead of one-off fixes, cutting new-implementation time by 67%, and led an AI-assisted documentation initiative that cut SME dependency by 83%. Leverages SQL-based analysis to inform decisions and defended a fixed compliance deadline over an internal initiative under competing pressure, with zero slippage. Drives Agile backlog strategy and UAT planning alongside Product Owners, and represents technical solutions directly to client audiences.

### CORE SKILLS

**Product Ownership & Agile:** Backlog Grooming & Prioritization, Sprint Planning & Ceremonies, User Stories & Acceptance Criteria (Vertical Slicing)

**Business Analysis & Process Strategy:** Requirement Elicitation, BRD/FRD/PRD, Impact & Risk Analysis, Reusable Solution Design, Process Standardization, UAT Strategy & Ownership

**Leadership & Collaboration:** Cross-Functional Collaboration, Multi-Region Stakeholder Communication, Client Workshops, Team Mentoring, Community Leadership

**Analytics & Data:** SQL-Based Analysis, Root Cause & Defect Trend Analysis, Data-Backed Decision Making, Compliance Gap Identification

**Tools:** JIRA, Confluence, SQL, Microsoft Excel / Google Sheets, Notion, Gliffy

### PROFESSIONAL EXPERIENCE

#### Business Analyst, FNZ Technology

May 2025 - Present

Gurgaon, India

- Owned end-to-end business analysis for a reusable payments integration platform built as a single point of change for future regulatory updates, cutting new-implementation time by **67%** and enabling faster, more consistent onboarding across concurrent client engagements.
- Prioritized** competing requirements from clients, stakeholders, and regulatory compliance, sequencing a fixed regulatory deadline and external commitments ahead of an internally proposed innovation initiative, hitting the compliance deadline with **zero slippage**.
- Owned sprint backlog prioritization** across **4 concurrent projects** sharing a common domain model, maintaining full sprint delivery while sequencing capacity against competing project demands and timelines, in partnership with the Scrum Master.
- Led** a cross-functional evaluation of an AI-assisted documentation process, defining success criteria and governance; the approach cut SME dependency by **83%**, accelerated defect resolution by **66%**, and was adopted as a formal organizational standard.
- Authored user stories and acceptance criteria for a global wealth management platform, reducing downstream requirement clarifications by **~60%** and shortening requirement turnaround by 20%.
- Defined a risk-based UAT strategy** that prioritized high-risk business scenarios, cutting test execution effort by **~50%** while preserving full regulatory coverage.
- Delivered functional solution design across **6 concurrent regional implementations** spanning **2 jurisdictions** in EU and UK markets, specifying system behavior for engineering and leading client workshops to pressure-test design early.
- Identified a cross-project sprint-planning conflict before it reached code-merge and drove the resequencing decision that protected **40%** of committed sprint story points from slippage.
- Designed and delivered** 2 org-wide knowledge-sharing sessions, scaling domain expertise across **400+ professionals** in industry messaging standards and platform capabilities.

## Business Quality Analyst, Rxlogix Corporation

Mar 2023 - May 2025

Noida, India

- Translated complex regulatory and business requirements into clear user stories and acceptance criteria, reducing requirement-related defects by **~20%** through early gap identification.
- Caught requirement gaps before they reached QA, sustaining **95%+ defect-free** delivery across compliance-driven releases and strengthening client confidence in a highly regulated environment.
- Led SQL-based defect trend and root-cause analysis to drive data-backed prioritization decisions alongside the Product Owner, reducing recurring issues by **~15%** and accelerating feature delivery timelines by **20%**.
- Mentored 7 new team members on BA-QA best practices, defect management, and stakeholder collaboration, shortening onboarding time.
- **Earned 2 Spot Awards** for requirement analysis quality and early-career delivery impact.

## EDUCATION

B.Tech, Biotechnology, Jaypee University of Information Technology

2019 - 2023, Solan, India

## CERTIFICATIONS

Certified Scrum Product Owner (CSPO®), Scrum Alliance | SQL (Intermediate), HackerRank

## LEADERSHIP

- **Ambassador, Women in Product India:** Organizes industry events connecting emerging product professionals with senior leaders, expanding mentorship access across the community.

## PROJECTS

- **Applied Systems Thinking:** Designed and maintains a Notion-based system applying sprint planning, prioritization, and retrospectives to continuously iterate on personal and professional priorities.
